

ProKa 925BC

Microbial Fat, Oil & Grease Control

Primary Applications: Grease Traps, Wet Wells, Pump Stations, Lift Stations, Collection Systems, Holding tanks, EQ Basins and Wastewater Treatment Plants

Benefits: Fat, Oil and Grease (FOG) removal, Odor Control

ProKa 925BC is a dissolvable, semi-submersible solid form that contains a blend of microbes and micronutrients specifically formulated to breakdown and digest fats, greases, olefins, and vegetable oils suspended in wastewater over time. **ProKa 925BC** will work effectively in grease traps, scum pits, lift stations, wet wells and flow equalization tanks, facultative lagoons/basins and aeration basins. The microbes produce a prolific amount of diverse enzymes that penetrate and process insoluble oils and fats under stressful environmental conditions. **ProKa 925BC** works under both aerobic and anoxic conditions over a wide wastewater temperature and pH range. **ProKa 925BC** does not contain caustics or acids and will not harm pipes or wastewater equipment.

SPECIFICATIONS

Product: Dormant microbial cultures and micronutrients
Viability: 4.0 billion CFU/g
Form: Solid puck - cylinder
Color: Green, red, blue or beige
Storage: Store product in a dry place between 21°-27° C (70°-80.6°F). If product becomes wet, it must be used immediately. Do not freeze.

DIRECTIONS FOR USE

ProKa 925BC may be applied to the wet well, lift station, grease traps and various points within a collection system. Hang unit to where part of it meets the water line but it is not totally submerged.

OPERATING CONDITIONS

pH 4.50 -10.0
Temp. 5°C - 55°C (40°F - 130°F)

Do not use in environments where high levels of toxic metals such as zinc, chrome, mercury, are known to exist.

AVAILABILITY

ProKa 925BC is available in 0.5, 1.0, 2.0, 5.0, 10.0 and 30.0 lb. blocks and shipped in cases. A suspension net is included with each unit.

CAUTION

Persons allergic to dust should employ nose and mouth protection when handling this product. In the event of direct contact with the eyes or skin, flush the affected area with water.
